

BOONIE

2G AND 3G READY
COMPLETE CELLULAR BOOSTER KIT

Product Number: (CA-CAR)

Add a cell phone booster to your vehicle and stay connected in the most challenging of geographical locations. By increasing a weak signal, the Boonie CA-CAR 2G/3G 50dB Cellular Booster kit lets you make and receive clear calls in what would have been a dead zone. This cellular booster kit is 2G and 3G compatible with all major US carriers. Not only does the Boonie enhance and extend your coverage, it can also extend the battery life on your phone or handheld cellular device by drastically reducing tower search that commonly drains a device's battery while roaming. The kit comes with an interior low-profile antenna that will rebroadcast the amplified cell signal throughout your vehicle, cabin or even home, providing an approximate coverage area of up to 15 square feet.

This booster package includes the booster antennas (internal and external), AC and DC power supplies and all hardware required for a fast and simple installation. This unit is back by an industry leading manufacturer's 3 Year Warranty.

Booster Kit Includes: (pictured items)

- 50 dB cell phone booster
- 5 dB magnetic roof-mounted antenna
- Low profile, interior patch antenna
- AC and DC power supplies
- Screw and velcro mounting kit

Unique Features:

Only the Boonie can be reconfigured to fit vehicles of all sizes and is designed for use in:

- Car
- SUVs
- Convertibles
- Vans
- Trucks
- Limousines
- Vehicles with or without sun or moon roof
- Cabins and Buildings

FCC Certified for new rigid network protection standards:

- Completely eliminates interference to cell tower
- Approved by all major US carriers
- Fool-Proof, Plug and Play operation

Key Features:

- Independently reconfigurable for each band
- Dual embedded CPU for smarter technology
- Eight RSSI detectors for all inputs and outputs
- Stealth technology incorporated – uplink becomes dormant when not in use, providing green, power saving operation
- FCC certified for new regulations and technical standards
- Supports multiple users
- Auto Gain Control (AGC) and manually adjustable dB gain and attenuation
- Automatic shut down
- Supports all 2G and 3G standards
- Quality metal construction, durable and resilient
- Lowest Out of Band Emissions (OOBE) to date

See page 2 for specifications and installation example

BOONIE

2G AND 3G READY
COMPLETE CELLULAR BOOSTER KIT

IDEAL FOR RECREATIONAL VEHICLES

- Easy Set Up
- Energy Efficient and Durable
- Increase Reception = MORE BARS
- Improves Cell Battery Life

TECHNICAL SPECIFICATIONS

Product Number: CA- CAR

Frequency	Uplink 824-849/1850-1910MHz Downlink: 869-894/1930-1990 MHz
Supported Standards:	CDMA, WCDMA, GSM, EDGE, HSPA+, EVDO and all cellular standards
Input/Output Impedance:	50 ohm
Maximum Gain:	50dB
Noise Figure:	5dB
VSWR:	≤2.0
Power Supply:	AC: 110V and DC: 5-15V
Maximum Output Power:	1Watt EIRP
Cable:	RG174
RF Connectors:	FME Male (both ends)
Power Consumption:	<10W
Dimensions:	8" x 1.25" x 5"
Weight:	1lbs 8ozs
FCC ID (USA):	RSNFLEX2GO

Installation Example:
