RAMHEAD™
 SATCOM ANTENNA

Product Name: RH-2535 NSN: 5985-01-619-6085

The RamHead Tactical SATCOM Antenna is designed to provide the radio operator a hands-free way to send and receive real time information via satellite. The RamHead provides high quality voice communications for both mounted and dismounted operations.

SPECIFICATIONS

Frequency: 225MHz-500MHz
 Polarization: Linear
 Input Power: 25 Watts (Max)
 Gain: 2.14dBi
 VSWR: 2.5:1 or Less

RamHead performance may vary based on location of operation. Operational chart is based on the results during field testing. Optimal usage is at a take-off-angle of 40 degrees or greater.
