TM-Masts

Lightweight, telescopic push-up masts

TM-masts are made of glass fibre composite material. Standard designs can be customised according to customer's specifications and requirements. Mast tube colour is dark green. Other tube colours are available at request.

Lightweight telescopic TM-masts are push-up masts for heights up to 26 ft and for 4-11 lb top loads. Mast sections are pushed out and locked with friction locks one by one.

Accessories and Ancillaries

- variety of mast base supports for unguyed mast
- guying accessories
- vehicle mounting kits
- antenna brackets
